BACKGROUND: Shamus Rocher'e is the only son of oil baron industrialist Cassius Rocher'e of Louisiana. At the tender age of sixteen, Shamus told his father off once too often, and the old man attempted to show his son that he was still top dog. When Sam put him into the hospital with his sudden display of metahuman power, Cassius disowned his son, and Sam was left to fend for himself. Scraping together what cash he could, Sam left town and finally settled down in Galveston, Texas. Using his talents, he became local muscle for some 'shiners, eventually landing in conflict with the Knight Watch (local hero team). After serving a year behind bars in juvenile hall, Sam was determined to lead a smarter life. He got a job as a mechanic at a local garage, and settled down to anonymity. Fast cars and fast women piled up the bills though, and to get out of debt, Sam joined an underground Streetfighting ring. He has become one of the top contenders in the USA, and enjoys the extras that the fighting provides. He is loud, proud, and unashamed, but doesn't want to back to jail ever.

REBEL SON'S CHEAT SHEET

Well, yee-haw brother. Let's go kick some butt!

To start with, be offensive! With the Fast Strike to get up to a mighty 7 OCV, you can deliver one of the largest punches on the board. Don't be afraid to use that killing attack either. God almighty boy, they deserve it! They's in your way. Beat them into the ground then dance Dixie on their remains. If things get tight, use the martial block, and set them up for a good shot the next round. And by all means, use that nasty kick on any fallen or stunned opponents. That's what God intended.

Defensively, you are pretty good, your shields take a mighty 30, and you've got some decent con and Recovery. There are some people on the board who can hurt ya, but they are few and far between. And don't be afraid to use that movement to keep up with the fight. One good leap should put you back in the thick of things.

Oh, and that love of Vital Signs thing. It can help you vs. Desire's Mind Control, so be sure to play it.
